SUMMARY

An aspiring Web and Mobile Developer with a hands-on experience in full-stack development using the MERN Stack. Skilled in HTML, CSS, JavaScript, and modern UI frameworks. Developed projects from web to mobile applications and real-time chat system. With strong problem-solving abilities, adaptability, teamwork, and leadership skills. Always eager to learn, collaborative, and looking for ways to grow and support team success.

EDUCATION

Laguna State Polytechnic University - San Pablo City Campus   *2021 – 2025*
Bachelor of Science in Information Technology
Specialized in Web and Mobile Application Development

EXPERIENCE

Gleent Inc. | Cabuyao, Laguna   *February 2025 – June 2025*
Laravel Frontend Intern

- Designed and improved user interfaces for systems like HRIS and Chat Support.
- Built a reusable UI component library to speed up and standardize development.
- Created a clean, responsive UI for a full POS system.
- Designed a video-based Training Manual system to simplify employee training.
- Led the intern team, managing tasks and team coordination.

PROJECTS

Multimodal Web Learning Application (Final-Year Project)

- Helped to developed a web-based learning app with multimodal teaching support, featuring gamified activities, QR-based student responses, and progress tracking.
  - **Repo:** *https://github.com/jem0001/capstone-public*

Realtime Chat Application

- Real-time technology was new to me, and this project gave me the opportunity to learn it hands-on.
- I used MERN stack to practice my full-stack development skills, working on both the frontend and backend.
- For the user interface, I used Tailwind CSS, and DaisyUI. Then I integrated Socket.io on the server side to enable real-time communication.
  - **Repo:** *https://github.com/jhscrz24/realtime-chat-project*

Recipe Finder Mobile Application

- Despite having limited experience in mobile app development, I successfully completed the project by staying patient within the process and learn a lot along the way.
- The tech stack I used are React Native, Express, PostgreSQL and Expo.
  - **Repo:** *https://github.com/jhscrz24/craveit-mobile-app*

My Portfolio Website

- Built a personal portfolio website to practice and enhance my UI/UX design and React.js skills. It features light/dark themes, EmailJS for the contact page, and react-hot-toast for message notifications.
  - **Repo:** *https://github.com/jhscrz24/portfolio-website*
